

Introducing Unlisted

Give your shareholders liquidity, transparency and price discovery. Right now.

The Unlisted Securities Exchange¹ (USX) is a cost-effective and transparent securities trading facility providing valuable price discovery and liquidity.

Since its launch in 2003 USX has transacted more than 16,400 trades of over 292 million shares at a value of \$316 million. USX currently quotes 16 securities for 15 issuers which have a combined market capitalisation of around \$3.0 billion. Since inception USX has averaged 88 trades a month worth \$1.7 million.

Why join USX?

USX allows small to medium sized companies to have their shares traded in a simple and cost efficient way, while minimising both the upfront fees and the ongoing costs. For many companies participation with USX will formalise existing over-the-counter (OTC) security trading arrangements and may be a step on the road to joining a licensed financial product market.

Participation in USX offers a number of benefits, including:

□ **Enhanced transparency**

USX removes the need for costly and complicated company valuations, and facilitates pricing of company securities in an independent, objective and robust manner compared with OTC practices.

□ **Enhanced liquidity**

Shareholders can enter and exit their holdings with confidence in the settlement and share transfer processes.

□ **Lower transaction costs**

Using USX reduces direct and indirect transaction costs associated with OTC securities trading, freeing up valuable issuer resources for more productive activities.

□ **Lower cost of capital**

Greater access to the capital markets and improved information flows enables issuers to access cheaper capital due to a reduced risk and liquidity premium. USX issuers have raised over \$366 million in new capital since 2003.

□ **Increased opportunities for growth**

Lower cost of capital improves issuers' ability to respond to market opportunities, promoting opportunities for economic growth.

□ **Enhanced communication**

Issuers can communicate information directly to "the market" in a low cost and fair manner. All users can access the trading data, investor communications and financial information on a centralised and accessible web-based platform.

□ **More direct and timely leadership and performance feedback**

The market pricing mechanism enables shareholders to express clearly and quickly their satisfaction or otherwise with issuer strategy and performance. This, in turn leads to improved management and director accountability, improved company performance and improved decision-making for investors.

□ **Expansion of Venture Capital Market for SMEs**

USX provides venture capitalists with a cost effective market based price/value indicator, and an opportunity to intermediate or liquidate their investment, freeing up venture capital.

□ **Increased information and choice for investors**

Investors have better access to information that is relevant to assessing investment opportunities, the prospect of reduced specific risk and additional liquidity. This enables investment diversification.

¹ USX is operated by Efficient Market Services Limited.

Who's involved in USX?

USX's shareholders include a number of successful individual investors from within the New Zealand business community.

USX is managed by Armillary Private Capital.

How does trading on USX work?

The publicly available USX website provides market information, for example current price bids and offers, and past trades. It also contains any company information that you choose to post, such as updates on current business activities. All trading is via stockbrokers who are registered with USX and who access the internet-based trading platform through the website. The market is open from 9am to 5pm Monday to Friday and brokers are able to enter or remove their bids at any time.

Rules and Regulations

USX is a Financial Product Market operating under an exemption from subpart 7 of Part 5 of the Financial Markets Conduct Act 2013² ("the Act") and certain conditions specified in the Exemption Notice. This means certain investor protections available under that Act do not apply to USX Issuers and their investors.

Issuers remain bound by the obligations contained in their constitutions, certain provisions of the Act and other legislation including the Companies Act, the Takeovers Code, the Financial Reporting Act, and by Common Law. Issuers are required to have available at all times their most recent Audited Annual Report.

USX fees

Standard Issuer participation fees³ start at \$1,050 per quarter (\$4,200 per annum) for issuers up to \$2 million in market capitalisation, with stepped increases up to a maximum \$6,562.50 per quarter

(\$26,250 per annum) for issuers with a market cap of \$100 million or above.

Issuers can have a second security quoted for an annual fee of \$1,500, and a rights issue quoted temporarily for a one-off fee of \$1,200.

There are no additional annual costs or transaction fees for issuers.

Brokers pay a \$7.50 fee per side (buy and sell) of each trade (except for reported trades and crossings to which a single \$7.50 fee applies).

Joining USX

It's easy to apply - just read the Market Rules, then complete an 'Issuer Application Agreement' and a 'Company Information Form'. All these documents are available on the USX website at www.usx.co.nz.

USX will promptly review your application material and any other relevant information, and get in touch with you. Any Issuer that is planning to raise capital and applying for quotation prior to such capital raise may be required to provide an application deposit. This deposit will be applied against the quotation fee if the Issuer is accepted for quotation and lists on USX. In the event that the application is declined or the Issuer withdraws its application prior to acceptance the deposit will be refunded. If the Issuer is accepted for quotation, but does not list on USX the deposit is non-refundable.

Once we have completed our due diligence and internal approval process we will provide you with an Issuer Listing Agreement to execute.

Need more information?

Visit www.usx.co.nz or contact USX's Manager, David Wallace at Armillary Private Capital on 0508 UNLISTED (0508 865 478), or by emailing info@usx.co.nz.

² Licensed financial product markets are discussed in Part 5 of the Financial Markets Conduct Act 2013.

³ All fees quoted are exclusive of GST.
